Determination of NONSIGNIFICANCE

Camp Bonneville Military Reservation Emergency Actions

August 8, 2006

Please find enclosed an environmental Determination of Non Significance (DNS) issued pursuant to the State Environmental Policy Act (SEPA) Rules (Chapter 197-11, Washington Administrative Code). The enclosed review comments reflect evaluation of the environmental checklist by the lead agency as required by WAC 197-11-330(1)(a)(i).

This is for emergency actions to restrict access to the property in the interest of public safety. Actions involve repairing the fence-line and associated brush clearing around the perimeter of Camp Bonneville.

Written comments may be submitted on this determination by August 23rd, 2006, after which the DNS will be reconsidered in light of the comments received.
